

17.05.2022

To whom it may concern;

Erse Kablo is aware of new obligations imposed by REACH and we have been working on this for since we have learned, together with our suppliers. We assure you that none of our products contain SVHC substances which are above the threshold value declared as per ECHA till 17th January 2022 with 223 SVHC.

We are also aware of our continuing obligations with regard to the dangerous substances restricted under the Marketing & Use Directive, which continue to be restricted, as prescribed in Annex XVII of REACH.

In case of any change of our supply plans and contents of our products in related with REACH, we assure that we will do our best to inform you at the earliest opportunity.

The customers are encouraged to visit the following site to get the most up to date information on current list of SVHCs under REACH. <https://echa.europa.eu/en/candidate-list-table>

The information is provided by our company on a "best effortt" basis using the information provided by our suppliers, published data and the documentation from ECHA.No attempt has been made to verify this information by third part analysis.

If you have any further question concerning REACH, please do not hesitate to contact us.
