

Air terminal 18, 21 m

Cat. no.
16218002

Type
162180

Material
(St/tZn) hot galvanized
steel

Made of hot galvanised steel. Lightning protection air terminal is used to protect certain devices and objects. Allows creation of extensive protection zones at facilities requiring high class protection (for example: objects with a high risk of explosion or important for region). Air terminal can provide a large separation distance and protection for a group of high objects. Concrete foundation is ordered separately.
