Thermowell

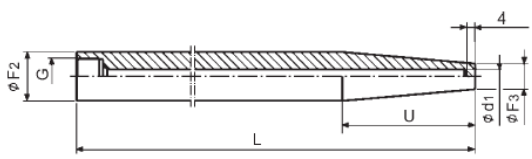

TW55 type D1, D2, D4 or D5
weld-in type acc.to DIN 43772

Application	Weld-in thermowell, solid machined acc. to DIN 43772 Form 4 for high process loads
Type	**TW55 typ D1, D2, D4 or D5**
Measure instrument	Suitable for dial-thermometer, glass-thermometer and resistance thermometer
Material	Various options available
Desing	Solid machined
Upper connection	M18x1,5 female connection
Probe diameter	Bore size dim Ø 7 mm for instument with probe max dim Ø 6 mm
Certificates	Inspection certificate 3.1 EN 10204 Material certificate: Wetted parts material with mill certificate incl. chemical analysis
Marking	Charge number and designation

Type	L	U	F2	F3	G	d1
D1	140	65	24	12,5	M18x1,5	7
D2	200	125	24	12,5	M18x1,6	7
D4	200	65	24	12,5	M18x1,7	7
D5	260	125	24	12,5	M18x1,8	7

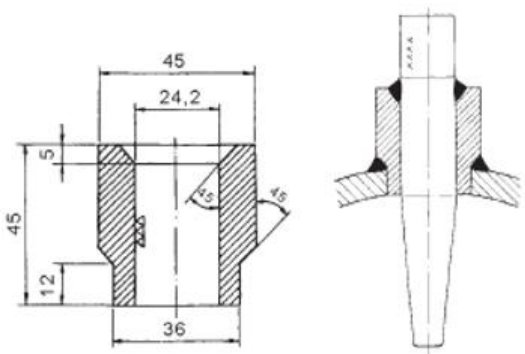

Weld-in thermowell TW55 type D

Connection piece D-45

Connection piece for weld-in thermowell
Material certificate 3.1 EN 10204
Wetted parts material with mill certificate incl. chemical analysis
Charge number and designation
