LN 710 LED

EAN 4007841053161

Functional description

The L 710 LED outdoor light scores with a trailblazing design. In connection with the elegant light gradient, the futuristic shape of the light creates a unique light pattern. The warm-white light (3000 K) adds a harmonious air to the overall sculptured effect. The L 710 LED outdoor light is fitted with an intelligent 360° infrared sensor and has four sensor programs, including night-light functions and soft light start. In the manual override mode, the L 710 LED stays ON for four hours. A second version is also available without motion detector - the LN 710 LED. This version is fitted with a photo-cell controller and provides automatic illumination at night as well as an optional night economy mode.
