Lamp range for basic use - pure white

Airam's PRO LED 3000 K series covers all light source needs for basic use. The lamps are in energy class A+ and have a long service life. This series includes the most common bulb types. The lamps are packed in cardboard boxes that clearly indicate the key technical specifications. Special characteristics for the lamps in this series include an extremely long operating life (25,000 h) and a high number of switch-on cycles (500,000). The colour temperature is pure white (3000 K).
