USE Used for the dead-ending of the AMKA cable messenger by means of hooks to either a pole or a wall.

CONSTRUCTION

Component	Material
Body and cone	Corrosion resistant aluminium alloy
U-bar	Hot-dip galvanised steel
Nut	Aluminium alloy

INSTALLATION

The messenger wire of the AMKA cable is passed through the cone. The butterfly nut is tightened manually. To ensure the grip the messenger wire of the AMKA cable is bent downwards behind the cone. The cone is colour coded to simplify identification of the correct clamp.
