

JOKARI® CABLE CUTTER WITH HOOK BLADE

Article number: 120010

»Jokari® Cable Cutter: Two-component tool with a non-slip soft-grip insert for optimal handling and a thumb recess with a hook blade (8-28 mm diameter). Cable cutters proven millions of times over for circular and longitudinal cuts; cutting depth can be individually adjusted via a screw, ensuring that damage to the inner conductors is prevented. Handle shells made of wear-resistant polyamide. Both the tips of the internal cable cutters and the cutting edges of the attached bow blades are coated with titanium nitride. At approx. 500°C, titanium nitride is vapor-deposited onto the cutting blade in a vacuum chamber using the PVD process. The reduced surface roughness and extremely high hardness result in excellent gliding properties and high wear and abrasion resistance. TiN-coated blades can be used with significantly greater durability and cutting performance.

Length (mm)	80 mm
Width (mm)	31 mm
Height (mm)	255 mm
Weight (kg)	0,094 kg

Attribute	Value
Foldable	No
Protective insulation 1000 V	No
Total length	165 mm
With protective cover	Yes
With scraper	No
Extendable	No
Length of the blade	29 mm
Material of the handle	Kunststoff
Blade shape	Hakenform
Blade height	- mm
Cutter knife	No
Cable knife	Yes
Automatic retraction	No
With sliding shoe	No
With locking mechanism	No
