Chago Pro

A timelessly stylish and modular solution for fast AC charging of electric vehicles.

22kW AC charging station

Chago Pro is a solution for the charging of one (EVF100) or two (EVF200) electric vehicles. It is engineered especially for fast AC charging (Mode 3, 3x32A).

Benefits:

- Modular structure: Possibility to modify charging station based on needs (single/dual charging)
- Models for ground and wall mounting
- Simple user interface
- Functional maintenance
- Esthetic and durable Scandinavian design
- Advanced communication options

Technical data in short:

| | |
|------------------------|----------------|
| Nominal voltage: | 230V/400V |
| Max. charging current: | 3-phase 32A |
| Dimensions (WxDxH): | 576x176x1375mm |
| IP class: | IP54 |
| IK class: | IK10 |
| Operating temperature: | -30...+50°C |
