

MPR-Connection plates type S+ galvanised

Application

- Strong connection elements for frames and pre-wall installations using the MPR-System components
- For indoor use

Your advantages

- Simple and quick connection of angle connections, cross connections and T-connections
- The mounting plates enable frame construction in one plane in which the channel slots have the same alignment
- Quick and simple attachment in combination with the MPR-Connection lock type S+
- Good adaptation to rail widths; in the case of frame constructions, the corners remain free

MPR-Angle plate 90° type S+

MPR-T-connection plate type S+
