

Water Leak Alarm

One time use. 4 Pack

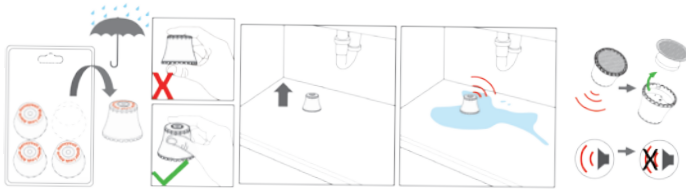

Honeywell's Water Leak Alarm provides early warning of potentially costly water damage in multiple locations.

Key Features

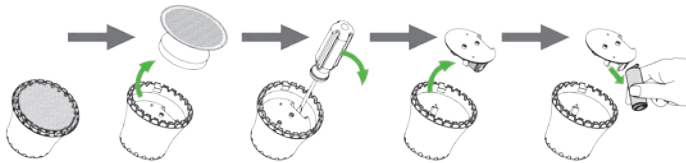

- Economical way to warn against water leaks throughout the home
- No installation and simple to use – place in the lowest area where water leak may occur
- Alarm will sound when water is detected – the Water Leak Alarm will sound if as little as 30ml of water is detected
- Audible sound: 74 dBA alarm at a distance of 0.3m
- Audible range: up to 30m
- Alarm will sound for up to 24 hours (dependent on battery life)
- Single use alarm – must be replaced once water is detected
- Ideal for use in areas not usually observed:
 1. Water heaters and boilers
 2. Behind washing machines, fridge freezers and dishwashers
 3. Under sinks and behind toilets
- Built in non-replaceable battery included
- Lasts up to 2 years
