Strengthen American Manufacturing

Mag Instrument is proud to be a leader in the current renaissance in American manufacturing. Mr. Maglica himself, a fervent believer in the importance of manufacturing in the United States, insists that the manufacture of Mag Instrument's flashlights remain U.S.-based. He has dedicated himself to proving that American products can excel in the global marketplace by using technology to continuously improve quality and reduce costs. Over the last three decades, Mr. Maglica's innovations have enabled Mag Instrument to offer consumers a consistently better value than the competition.

Mag Instrument is the only flashlight company with significant market share that still manufactures its entire line of flashlights in the United States. Unlike its competitors, Mag Instrument has chosen not to outsource the manufacturing of its flashlights to foreign countries in order to take advantage of cheap labor and less stringent environmental standards, which may also result in inferior quality. The outsourcing of manufacturing by other U.S. companies has caused millions of jobs in the United States to be lost. Indeed, if Mag Instrument had chosen the path of other flashlight companies, the jobs of hundreds of its employees in Ontario, California, would have been lost - with corresponding job losses, no doubt, at other U.S. companies that supply parts, materials and services to Mag Instrument.

MAGLITE® MAG INSTRUMENT, INC.

The distinctive shapes, styles and overall appearances of all Mag Instrument® flashlights, and the circumferential inscriptions extending around the heads of all Mag Instrument® flashlights, are trademarks of Mag Instrument, Inc. The circumferential inscription on the head of every flashlight signifies that it is an original MAG® flashlight and part of the MAG® family of flashlights.

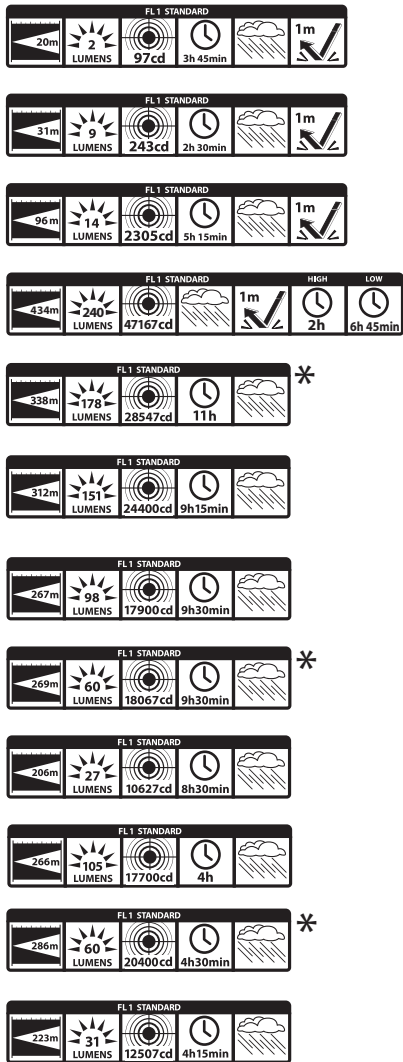

LED
FLASHLIGHTS

Mag tests according to the ANSI/NEMA FL 1-2009 Flashlight Basic Performance Standard. We design and engineer our products with **Precision Focused Optics and Intelligent Electronics.** Instead of just concentrating on raw lumen output alone, we also seek to optimize the **targeted** delivery of **useful** light for an extended time. This is reflected in our products' superior peak beam intensity, beam distance and run time.

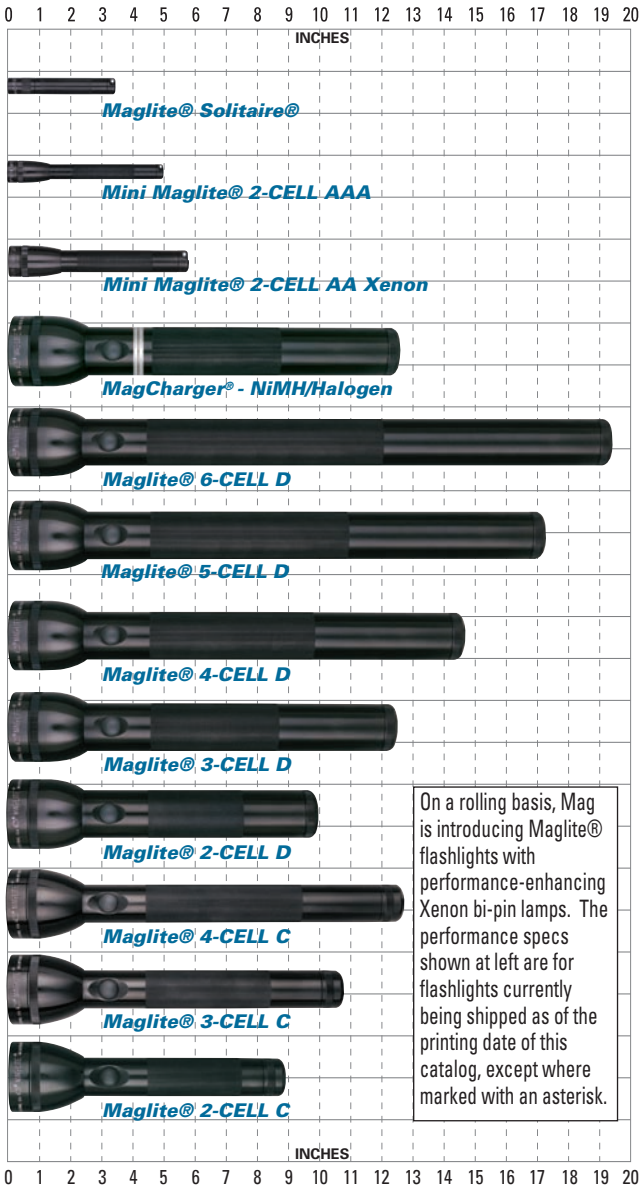

INCANDESCENT
FLASHLIGHTS

Mag tests according to the ANSI/NEMA FL 1-2009 Flashlight Basic Performance Standard. We design and engineer our products with **Precision Focused Optics** and **Intelligent Electronics**. Instead of just concentrating on raw lumen output alone, we also seek to optimize the **targeted** delivery of **useful** light for an extended time. This is reflected in our products' superior peak beam intensity, beam distance and run time.

* These figures reflect performance enhancements expected to be introduced in 2013.

MAG-LITE® SOLITAIRE® LED FLASHLIGHT

POWERED BY 1 "AAA" ALKALINE BATTERY

NEW

"A keychain-size flashlight with big-light power" -- that describes our all-new **MAG-LITE® SOLITAIRE® LED Flashlight**. It features the classic look of our original Solitaire® flashlight introduced in 1988. And it works in the same simple way -- just twist the head to turn on, turn off and focus spot to flood. But thanks to a new, state-of-the-art LED light engine, you get something you just wouldn't expect to see coming out of a flashlight so small: A blast of power that can light up an object at the far end of the parking lot.

Use your Flashlight with your keys.

MAGLITE® SOLITAIRE® LED 1-Cell AAA SPECIFICATIONS

- Overall Length:* 3-3/16 inches / 81 mm
- Barrel Diameter:* 1/2 inch / 12.70 mm
- Head Diameter:* 1/2 inch / 12.70 mm
- Weight with battery:* 0.8 ounces / 24 grams
- Batteries Required: (1) AAA Size Alkaline (included)

Colors subject to availability: Black, Red, Blue, Silver and Gray * All specifications shown are approximate.

MINI MAGLITE® LED AAA FLASHLIGHT

POWERED BY 2 "AAA" ALKALINE BATTERIES

NEW

"Small, simple, but scorchingly bright" --

Introducing the all-new **MINI MAGLITE® AAA LED Flashlight**. The heir to the original Mini Maglite® 2AAA flashlight launched 25 years ago, this newest member of the family features the same classic look and size and the same simple operation -- just twist the head to turn it on, turn it off and focus the beam. But thanks to a latest-generation LED light engine, it produces a beam whose intensity is nothing short of amazing -- from a pocket-clippable flashlight that's not much bigger than a penlight.

Accessories:

Black Nylon Full Flap Holster (AM3A026)

MINI MAGLITE® LED 2-Cell AAA SPECIFICATIONS

- Overall Length:* 5.109 inches / 129.7 mm
- Barrel Diameter:* 1/2 inch / 12.70 mm
- Head Diameter:* 3/4 inch / 19 mm
- Weight with battery:* 1.73 ounces / 49.04 grams
- Batteries Required: (2) AAA Size Alkaline (included)

Colors subject to availability: Black, Red, Blue, Silver and Gray * All specifications shown are approximate.

MINI MAGLITE® LED FLASHLIGHT

POWERED BY 2 "AA" ALKALINE BATTERIES

Delivers performance oriented features in a sleek compact design. This advanced lighting instrument is driven by the next generation of MAG-LED® technology. The Multi-Mode Electronic switch offers two different power settings - a maximum-power setting that yields maximum brightness and a 25% power setting to conserve battery power for reading at night, or for a prolonged emergency.

- **Easy to use**
- **Powerful Projecting LED Beam**
- **4 Selectable Modes:**
 - High Power
 - Low Power (25%)
 - Blink Mode
 - SOS

MINI MAGLITE® PRO™ LED FLASHLIGHT

POWERED BY 2 "AA" ALKALINE BATTERIES

NEW

Introducing the all new MINI MAGLITE® PRO™ LED Flashlight. - The iconic look of our original Mini Maglite® 2AA flashlight, introduced more than a quarter-century ago, is still seen in this newest member of the family. So is that same classic simplicity of function: Just twist the head to turn on, turn off and focus the beam - That's it. But there's one big difference: The new Mini Maglite® PRO™ houses a latest-generation LED - a light engine that yields a level of performance that, back in the day, just wasn't possible in a flashlight this size.

- **CLASSIC SIMPLICITY -**
Twist the head to turn on, turn off, and focus.
- **MODERN POWER -**
Next-generation LED for a whole new level of brightness.

Accessories:

MINI MAGLITE® LED PRO 2-Cell AA SPECIFICATIONS

• Overall Length:*	6.607 inches / 167.8 mm

• Weight with battery:*	4.15 ounces / 117.75 grams
• Batteries Required:	(2) AA Size Alkaline (included)

Colors subject to availability: Black, Red, Blue, Silver and Gray * All specifications shown are approximate.

MINI MAGLITE® PRO+™ LED FLASHLIGHT

POWERED BY 2 "AA" ALKALINE BATTERIES

NEW

Introducing the all new MINI MAGLITE® PRO+™ LED Flashlight. - Features the same iconic beauty that has made Mini Maglite® the world's most recognizable lighting instrument for a quarter-century. And it has the same renowned, high-precision optics that the MAGLITE brand has always stood for. But there's a "PLUS" (two, actually): (1) The PRO+™ offers new, powerful electronics, driving the state-of-the-art LED light engine to an impressive lumen output at the "high" setting and (2) The PRO+™ lets the user choose between two power levels – one for maximum brightness the other to conserve power.

• **CLASSIC SPOT-TO-FLOOD FOCUS** - Just twist the head (same as always)

• **PLUS TWO-LEVEL POWER** – Unique switching system lets you select "high" for dazzling brightness or "low" to save batteries.

Accessories:

MINI MAGLITE® LED PRO+™ 2-Cell AA SPECIFICATIONS

MAGLITE® PRO™

LED FLASHLIGHT

NEW Ultra Bright

The look of our original Maglite® D-Cell flashlight, introduced more than three decades ago, is now a classic of American industrial design. That iconic look is still seen in this newest member of the family. So is that same classic simplicity of function: Just push the button to switch the flashlight on and off; just turn the head to focus the beam. But there's one big difference: The new Maglite® PRO™ houses a state-of-the-art LED light engine that combines awesome lumen output with surprisingly efficient power usage, offering levels of performance far beyond what was possible "back in the day."

• CLASSIC SIMPLICITY –

Just push the button to switch the flashlight on and off; just turn the head to focus the beam.

• MODERN POWER –

Next-generation LED for a whole new level of brightness.

MAG-LITE® C-CELL FLASHLIGHTS

The Mag-Lite® C-Cell flashlight embodies the same precise balance of refined optics, efficient power, durability and quality as the D-Cell Flashlights in a smaller, lighter weight design. Each Mag-Lite® C-Cell flashlight includes two high intensity gas lamps for enhanced brilliance and extended range.

Accessories:

Replacement lamps
2-Cell C&D - LWSA201 (LMXA201*)
3-Cell C&D - LWSA301 (LMXA301*)
4-Cell C&D - LWSA401 (LMXA401*)

Traffic Wand Kits
with reflective tape for
C-Cell & D-Cell only.
Red (ASXX798)
Yellow (ASXX508)
White (ASXX808)

*Expected to be introduced in 2013

See page 6 for ANSI Standards
