

# RCS-114

# RCS-158

## Round Cable Strippers

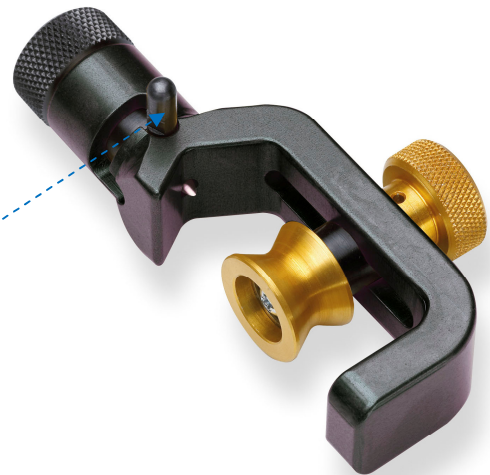

- Excellent tool for precise jacket stripping of fiber cable.
- Suitable for PE, PVC, rubber or other jacket materials
- Suitable for end stripping or window-cut (mid-span).
- RCS -114 range: 4,5 – 29 mm
- RCS -158 range: 19,0 – 40 mm
- **Tri-action Strip:**
  - ✓ Circumferential (ringing) cut
  - ✓ Longitudinal cut
  - ✓ Spiral cut
- Blade design guarantees long life
- Blade depth adjustment by turning the blade housing
- Ergonomic grip
- Blade is replaceable: CB231

# ACS

## Armoured Cable Slitter

- Ideal for slitting the corrugated copper, steel or armored layer in Fiber Optic Cable
- Tool slits outer PE jackets and armor in one operation
- Performs Circumferential (ringing) and longitudinal slitting for both end stripping and mid-span preparation
- Blade (CB251K) rotates 90° by activating blade lever
- Adjustable for cable OD's: 8 – 28,6 mm
- Adjustable blade depth to 5,5 mm
- Rugged anodized Aluminum and steel construction
