

ACS

Armoured Cable Slitter

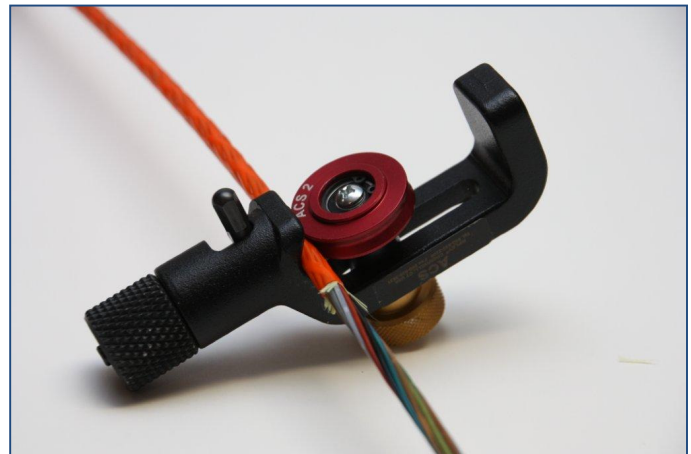

- Ideal for slitting the corrugated copper, steel or armored layer in Fiber Optic Cable
- Tool slits outer PE jackets and armor in one operation
- Performs Circumferential (ringing) and longitudinal slitting for both end stripping and mid-span preparation
- Blade (CB251K) rotates 90° by activating blade lever
- Adjustable for cable OD's: 8 – 28,6 mm
- Adjustable blade depth to 5,5 mm
- Rugged anodized Aluminum and steel construction

ACS-2

Cable Slitter for thin jackets (4-10 mm)

- Ideal for slitting thin jackets of optical fiber cable
- Performs Circumferential (ringing) and longitudinal slitting for both end stripping and mid-span preparation
- Blade (CB251K) rotates 90° by activating blade lever
- Adjustable for cable OD's: 4 – 10mm
- Rugged anodized Aluminum and steel construction
- Cable guide wheel can be ordered separately

Jacket Strippers			
Type	Part number	Length	Weight
ACS	37880	127 mm	284 g
ACS-2	37897	127 mm	284 g
ACS-2 wheel	37896		
ACS-2K (ACS plus ACS-2 wheel)	37899		
CB251K	37884	Spare Blade ACS / ACS-2
