DESCRIPTION

- High density black aluminium 4 valve body with tested leak proof sight glass and hook.
- Possibility to panel mount.
- Equipped with 3 x 1/4" MFL and 1 x 3/8" MFL connections. A fifth bottom connection is plugged. Removal of this plug (1/8" NPT) allows installation of an extra service connection. 3/8" vacuum port allows 4 times faster evacuation than ordinary manifolds.
- Deep vacuum valve design: proven leak proof, easy replaceable diaphragm type valves require only fingertip pressure to close tightly and can be fully opened with only 1 turn.
- Standard delivered with 80 mm "pulse free" gauges (see page 54).
- Durable non slip surface, soft touch handles.
