Portable Fan Heater 9kW CEE inlet

The fan heaters are designed for temporary or permanent heating for the possible use in constructions sites, in warehouses, workshops, weekend cottages and similar dry or wet areas. The ventilator motor has a low noise level and the specially shaped front grill controls the air flow and provides a wide heating area.

Product arguments

- Robust design in corrosion-resistant galvanized sheet steel
- Powerful fan motor with low noise level
- The heaters are designed for optimal air flow and quick heating
- The controlling screen on the front holds together the air flow, creating a greater throw length
- Intended for both temporary and permanent heating, IP 44 for use in damp areas
- Variable thermostat 5° to 35°
- 16a CEE plug direct on the fan
- The overheating protection is reset manually on the control panel
- Do not load N (neutral)
