## Timer with hygrometer

Unnecessary energy loss is expensive! The EL-Björn Timer with Hygrometer system allows total control of both drying and drying time to minimize energy loss.

Can be used with A 75F/F and A 155F

# Product arguments

- Energy saving - operation is controlled to suit drying needs
- Switches off automatically when set relative humidity has been reached
- Allows control of run time - limits run time and avoids unnecessary operation
- For direct connection to dehumidifier
- Timer unit and hygrometer unit can be installed separately
- Can be used with other products where humidity control is required
