Air cleaner

Particles, gases and dust can be damaging for your health and the environment. An El-Björn model LR500 purifies the air effectively from for example dust, asbestos, virus, smoke, gases and so on.

Product arguments

- Filter cassette with Hepa filter and prefilter
- Possible to connect a suction side to the outdoor air
- Clean air is forced out via the outlet nozzle
- It is possible to create positive and negative pressure in the room in combination between the inlet and outlet to prevent contamination
- Clean air can be directed to the required area using a hose
- Compact and stackable design
- Can be fitted both on the wall and floor

Article No.: E8749001

Type: LR 500

Certifications:
