All POLARIA products  have a two-year warranty!

HANDLE INSTALLATION

Remove the backing from the handle pad from the side on which it covers the entire area of the pad. Attach the handle pad as shown in the picture. Remove the backing from the other side. Push the handle evenly into position.

Note! To facilitate installation you can remove the mirrors before installing the handles and mounting the mirror cabinet on the wall. Finally tighten the screws carefully. Make sure that the silicon bits at the end of the screws are still intact.

INSTALLATION OF THE MIRROR CABINET

Note! If light wiring and outlet wiring have not separate electric circuit you need to connect L¹ and L² with conducting wire (0,5 mm²).
